Technical Skills

Languages: JavaScript, Java, C

Technologies: React.js, Express.js, Node.js, Tailwind CSS, WordPress

Database: MongoDB, SQL

Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms, Complexity Analysis, Operating System, Computer Networks, RESTful APIs, JSON, Version control (Git/GitHub).

Certifications and Training

Java and Python Full Stack Development

Aug 2022 - Feb 2023

Completed at KodNest Technologies

Bangalore, Karnataka

Projects

LivShade | React.js, Tailwind CSS, Node.js, React-Toolkit, RTK Query, Express.js, MongoDB | [Link](#)

- Created Interior Design Website to highlight the elegance of numerous design concepts with amazing photographs.
- This interface makes it simple to find important information, stimulates clients to imagine their ideal homes while linking them with interior design services.

Tech Blog | React.js, Tailwind CSS, flowbite-react, Node.js, Express.js, MongoDB, OAuth | [Link](#)

- Developed the frontend using React.js and Tailwind CSS for a seamless user interface. Implemented an admin dashboard for creating and posting blogs and managing users.
- Implemented a backend with Express.js and Node.js to manage data and handle user requests effectively.
- Integrated OAuth for secure user authentication and utilized JWT for authorization.

Chat App | React.js, Tailwind CSS, daisyui, Node.js, Socket.io, Express.js, MongoDB | [Link](#)

- Frontend development using React.js and Tailwind CSS for an interactive and user-friendly interface.
- Implemented a signaling server using Node.js and web sockets (Socket.io) for real-time chatting.

Food Ordering Platform | React.js, Tailwind CSS, React-Toolkit, Node.js, Express.js, MongoDB | [Link](#)

- Developed and deployed a food ordering application using React.js for the frontend and Node.js for the backend.
- Deployed the application online to ensure seamless accessibility and enhance user experience.
- Integrated MongoDB for efficient data management and Stripe for secure payment processing.
